

MAIL ORDER FORM

WINTER 2006

This year's plants listed for mail orders are limited to container-grown varieties on their own roots. Selected bare-rooted roses will be available on request. The latter will be dispatched between June and August. Own-root plants can be sent until the end of September. Own-root roses are grown out-door in soil-less medium for at least one year before sold.

To optimise your success these are shipped with some "soil" attached.

Please list possible alternatives in case stocks of any varieties in your selection are low.

MAIL ORDER PRICES are as indicated.
